

### Competitor Instructions

---

Please head to the following URL and follow the instructions there:

[github.com/skills17/competition-manager](https://github.com/skills17/competition-manager) ↗

### Demo Competition 2024

Once you have started the competition manager, you should see the Demo Competition 2024.

1. Download the competition files by clicking on the "Download" button.
2. Decrypt the competition files using the password `1234` by clicking on the "Decrypt" button.
3. Study the short demo competition README and execute the instructions to set up the environment.
4. You should see a sign-up screen. Please sign up with your personal information.
5. Verify you can solve the tasks and submit the results.

 The demo competition already contains the solution to the tasks in comments. Try to find these comments (e.g. search for `solution`) and verify that, after running the tests, you get full points.

After submitting, you should find your results here: [Demo Competition 2024 submissions](#) ↗ .

Note: Your score is intentionally not be visible on that website.

The regional competition 2024 will have the same dependencies and structure as the demo competition. Therefore, it is strongly advised that you thoroughly familiarize yourself with the competition files and the competition manager.

### Regional Competition 2024

The files for the regional competition 2024 will be released at least in the evening before the competition. You can download the files from the competition manager. The password to decrypt the files will only be given to you at the beginning of the competition.

### Trouble

Got trouble with the setup? Please create an issue on the competition manager repository. You will need a GitHub account to do so.
